## Dual range semi-micro balances

### Standard features

Innovative UniBloc-Technology.

Different units like; Milligram, Carat, Grain, Gramme, Mom, Tael... (except verifiable models)

Automatic span calibration;

- Fully-automatic calibration by temperature detection (PSC)
- Fully-automatic calibration at user pre-set times (CLOCK-CAL)
- Span calibration at any time: Touch key calibration.

Formulation mode for receipts and prescriptions.

Piece counting function.

Intervall-Timer for automatically print-outs (except verifiable models).

GLP/GMP- compliant reports.

Specific gravity measurements.

below-weigh hook for hanging measurement.

Metal housing.

Verifiable models. 

---

### Accessories

Kit densities of specific gravity, just solid.

Density Kit

Kit densities of solid / liquid.

Software for specific gravity measurements of solids and liquids pre-installed.

Electronic Dot-Matrix printers EP80/EP90 optional available. GMP/GLP compliant. Can be used together with Windows-Direct-Function.

EP-80 printer

EP-90 printer
