VORTEX MIXER

Suitable for the experiments of mixture, reaction and dissolution of fluid samples in a moment

Two mode operation-Touch the mixing surface and the unit energizes or flip the toggle switch to continuous and the unit operates in continuous mode

Full range speed control to match your contents and tube requirements.

Suction cup feet to protect work surface and prevent "walking".

Proper speed according to the environment of experiments can be achieved with a toggle switch.

The most suitable mixing condition can be made by using a powerful motor.

Model	Type	Material	Speed	Dim.(mm)	Net weight (Kg)	Power	Price Sale
250VM	Test tube	NBR	0-3000rpm	135x185x180	3	AC110 or 220V	75€
260VM	Flat head	PE foam	0-3000rpm	135x185x190	3	AC110 or 220V	80€
